This is a beginning weave with endless possibilities. Deborah Roberti is a wonderful designer and has graciously said that I may use any of her patterns to teach (and I have them ALL). So when I say Your Choice, it's because I'll open up my binder and you can choose the pattern you wish to make. Right Angle Weave (RAW) is a basic weave; it's the awesome color combinations and embellishments that make each piece look so different from the next.
